AllCure
Think beyond green!

AUTOMOTIVE AND INDUSTRIAL

ABOUT

OilCure use state-of-the-art microbe technology that can eliminate and/or reduce hazardous waste, workplace health and safety risks, environmental liability and costs. It is an ideal replacement for d'limonene, naphtha, mineral spirits, MEK, methylene chloride and other petroleum-based solvents.

These de-greasing products that can be used to clean-up oil spills in work bays on floors, walls, driveways, forecourts, roadways and equipment. The products have the ability to render flammable liquids non-flammable within minutes.

OBJECTIVE

The main concerns for these industries are as follows:

- 🔥 Reduce the current spend on harmful chemicals
- 🔥 Reduce water consumption
- 🔥 Safe disposal of water
- 🔥 Healthier environment for employees
- 🔥 Prevent further damage to equipment caused by corrosive materials
- 🔥 Prevent fire hazards (non-flammable products)

PRODUCTS LIST

- 🔥 Multi-Surface Cleaner
 - 🔥 Fuel Eliminator
 - 🔥 Oil Vanisher
 - 🔥 Oil Digester
 - 🔥 Calcium Buster
 - 🔥 Auto Scrub
- 🔥 Parts Cleaning Powder
 - 🔥 Asphalt Remover

Multi-Surface Cleaner / Fuel Eliminator: Bioremediation is the application of biological microbes for the cleanup of hazardous oil spills resulting in a safe, efficient and cost-effective solution. Renders flammable liquids non-flammable. Designed for everyday cleaning of all hydrocarbons from floors to tools.

- 100ml, 500ml, 750ml, 1L, 5L, 20L, 200L, 1000L

Oil Vanisher: Using Nano-Natural technology, Oil Vanisher is a liquid that will soak deeply into the surface and lifts the stain out where it can be washed away. Removes oil stains from concrete and asphalt and pavers, garages, fuel pumps, drive-through and parking areas.

- 750ml, 5L, 20L, 200L, 1000L

Oil Digester: A powerful blend of twelve strains of microbes, enzymes and natural botanical nutrients designed to digest hydrocarbons in groundwater and soil and remediation applications.

- 1L, 5L, 20L, 200L, 1000L

Calcium Buster: Is a fast-acting all-natural cleaning product which prevents build-up of calcium, lime, uric acid and scale. Regular use will reduce maintenance costs and increase the life of the equipment.

- 750ml, 5L, 20L, 200L, 1000L

Auto Scrub: A low foaming water-based bio-remediating cleaner with superior cleaning capabilities suitable for all auto scrubbing machines. Effectively degrades heavy synthetic oils and greases as well as animal and vegetable oils.

- 100ml, 1L, 5L, 20L, 200L, 1000L

Parts Cleaning Powder: An all-natural bioremediating product which eliminates the need to use toxic chemicals reducing health and safety risks as well as disposal costs. Contains corrosion inhibitors to prevent flash rusting. Designed for use with most automatic spray cabinet style washers.

- 1Kg, 5Kg, 20Kg, 200Kg

Asphalt Remover: An industrial cleaner specifically designed for cleaning asphalt and heavy oil/tar from trucks and equipment. It dissolve and soften these materials from low porosity surfaces such as metals and plastics.

- 750ml, 5L, 20L, 200L, 1000L

A Natural Wonder

The Bureau of Statistics has shown that since 2007, chronic disease and allergies has increased by 35% in babies and children under 14 years old. The most common are skin and respiratory disorders. It is common knowledge that chemicals impact on the environment and our well-being, thus resulting in the rise of diseases and allergies.

Biochemists have discovered, what Mother Nature has known for millions of years, a new generation of 100% all-natural cleaning solutions.

Our products are made from these 100% natural ingredients and will not pose any threats or harm on the well-being of humankind, our animals, our home and our environment, ensuring total piece of mind and safety. when using these products.

We welcome you on our journey of a healthy, cleaner, safer lifestyle and not having to worry about reading dangerous labels.

OilCure Cleaning - another natural wonder of the world

Safe - process, safeguard human user and environment

100% All-Natural - alternative to caustic and solvent based chemicals

Preventative - no harmful residue, non-toxic, non-hazardous, non-corrosive, non-flammable and hypo-allergenic

Smarter - cost effective, fit for purpose, ready to use or concentrated, depending on application requirement

Effective - detailed, independently verified data and test results
